

“Become a Geographer” Booklet

Create a booklet that can teach a third grader about mapping. Books should include examples and explanations of different types of maps, an explanation of latitude and longitude, and a description of the elements included on a map. Neatness counts!

1. Title page-title and your name (10 pts.)
2. Types of maps- description for each in complete sentences (15 pts.)
3. Continents- each labeled and colored a different color (15 pts.)
4. Latitude and longitude- definition for each, how each is labeled (cardinal directions), examples. (15 pts.)
5. Map elements- TODALS (15 pts.)
6. Geographical features- 5 examples with pictures (15 pts.)
7. Write a paragraph about where in the world you would like to travel and why. (15 pts.)
